

Dear guests

On 16th February, the Swiss Federal Council decided for hotels, wellness areas and restaurants:

From 17th February, all measures such as compulsory certification and compulsory masks will be lifted!

In public transport (also in closed cable cars as well as in our hotel shuttle bus) the mask obligation still applies.

The 5-day isolation obligation in case of a positive Covid test still applies. We ask our guests to take note of this.

Ski area:

A 2G certificate (vaccinated or recovered) is required to use the entire ski area of Samnaun and Ischgl until 18th February 2022. From 19th February until 4th March a 3G certificate (vaccinated, recovered, tested) is required. From 5th March the certificate requirement also falls in Austria.

Samnaun guests **without** a certificate have the possibility to use some of the facilities in Samnaun with the reduced "Samnaun day ticket".

We kindly ask you to note that in the closed cabins and in chair lifts, which are equipped with a bonnet, only on the Austrian side of the ski area FFP2 masks are still compulsory.

Further information can be found here in the official information from Samnaun: <https://www.samnaun.ch/de/ski-arena/covid-19-compliance-winter-202122>

We ask foreign guests to observe the rules of their respective home country when returning home!
